Connect up to 3 door

Worrying the kids haven't returned home? Now you may connect single or multiple IOT products via Eyeopen - even without any Powertech gate automation installed, our Bii-series IOT products allow you to enjoy a completely safe home.

By sharing access with family members (10 free users access) with customized permissions, you may define who gets in from our user management platform. One tap required, then you can set your mind at ease.

With Biitween, you are free to upgrade your existing gate automations to smartphone-controllable, enable all the operations and settings via one APP only - Eyeopen.

PAIRING WITH Biicam SERIES OR Biibell FOR A THOROUGH SAFETY FEATURES
